This bibliography is devoted to: MathChess-ChessBoard Problems-Puzzles, Retrograde Analysis Chess Problems, Joke-Letter-Picture Problems, Chess Problems and Computer, and others Unusual ChessProblem references ...

I seek references (from all the World and in all the languages) to: **Books, Journals, Papers, Booklets**, **Articles, Chapters, Paragraphs** ... (old, very old, recently and/or expected ...) and every other Help for to have a much more complete bibliography, reference-book.

Very useful for my investigations, are Annual Indexes of Journals, information, addresses, references about journals, collectors, associations, libraries, clubs ... from all the World.

For Journal's Editors (Chess and non-Chess Journals/Magazines): Are You interested to have Your Journal (out-of-print or in print) in this list? Please, send me back Indexes and next time novelties.

THANKS IN ADVANCE!
Greetings, Mario VELUCCHI
